

## Summer Internship Information

### *Build the Workforce of Tomorrow by Making Connections with North Valley Students Today*

North Valley is excited to share that we are once again offering the North Valley Summer Internship Program for students who have taken a North Valley class(es) and completed grades 9, 10, or 11. Last summer, 33 students were placed with local employers. This opportunity helped to support our local businesses by filling various staffing needs, and teaching students valuable work skills while earning high school credit and income. We are hoping to create the same successful experience again.

Students will earn high school credit throughout the summer (June 1, 2022 – August 20, 2022) for 75 hours or more of work and may receive wages from working. Schedules will be set between the employer and the student. Students must be able to provide transportation to and from your workplace.

Attached for your information, are the forms that will be required to be completed by the business and/or the student in order for the student to receive credit. For participating and completing the paperwork, businesses will receive \$375 for each student who completes 75 hours of work. North Valley will start placing students on May 5th and will try to have all students placed by May 10th.

If you are interested in partnering with North Valley Career and Technology Center for the Summer Internship Program, please complete a survey by April 29 at <https://www.surveymonkey.com/r/SW6JD5P> to give us more information about your business and for North Valley teachers to be able to make a good student recommendation(s) for your business from our interested pool of students. If you would like to hire the student(s) who job shadowed with you, please add that note in the comment section of the survey. A school official will contact you to discuss potential participation and answer any questions you may have. Please contact Jayce Schumacher with any questions [jayce.schumacher@northvallyctc.org](mailto:jayce.schumacher@northvallyctc.org). Thank you.
